Area covered

Date / 2010

ROAD WORK SUMMARY for area:

	Male	Female with egg	Female post egg	Female (egg state unknown)	Adult (sex unsure)	Amplexis couples	Juveniles (16mm-70mm)	Toadlets (<15mm)	TOTAL
Number rescued									
Number dead on road									
Additional seen									

Each column is exclusive. Total must equal columns (with amplexis = X2).

Amplexis assumes a male over a female - otherwise count it is 2 in the male column.

Number live photographed for population census
